

## YOUR PROFESSIONAL SEAL

(The use of the seal is reserved only for Engineers)

Section 24 of the Engineers Act (R.S.Q. c, I-9) provides that all plans and specifications for works included in the field of practice of engineersmust be signed and sealed by an engineer or the holder of a temporary licence issued by the OIQ. The only exception to this rule is for plans and specifications prepared outside the province and dealing exclusively with the manufacture of machines and equipment included in theworks contemplated by paragraph 2 c) of the Engineers Act and used for industrial manufacturing.

Section 24 also stipulates a fine not exceeding \$10,000 for anyone using plans and specifications not signed and sealed by a member of the OIQ or holder of a temporary licence. For information on the situations in which engineers must or may affix a seal, please consult section 3.04.01 of the Code of Ethics of Engineers (R.R.Q. 1981, c. I-9, r.3).

The seal is available in French only or in French and English. Women engineers may order their seal showing the word "ingénieure".

Please be very careful to keep your seal in a safe place, to avoid its unauthorized use.
